Overview

Businesses need to navigate an increasingly complex tax landscape with frequent legislation and policy changes. Tax issues that arise for any one business will, of course, be unique to their circumstances – whether it is their type of business or the industry in which they operate, or their own tax or risk profile. Our approach in any given transaction is to effectively utilize innovative tax planning to accomplish client objectives and minimize tax costs.

We counsel on federal and state income tax planning and tax issues related to the operations and activities of corporations, limited liability companies, partnerships, exempt organizations and individuals.

We provide straightforward, actionable advice on:

- General business taxation
- Representation of tax-exempt entities
- Tax litigation and controversies
- Executive benefit planning
- State and local taxation
- Bond financing
- Real estate tax appeal
- International taxation
- Personal tax planning
- Trust, estate & wealth transfer planning
