

# Navigating Ownership Disputes and Litigation

Speaking Engagements & Seminars

10.15.2024

---

Michael S. Horn and Rafael A. Llano will be presenters at the 2024 National Association of Dealer Counsel (NADC). Owners, partnerships, shareholders and LLC members in the automotive dealership industry run significant risks if there are disputes between the owners of a dealership. For instance, manufacturers and lenders may view such a lawsuit as a default or reason for termination. In their session, "Navigating Ownership Disputes and Litigation," Michael and Rafael will address practical considerations in the resolution of disputes and potential collateral consequences. Topics to be covered include:

- Understanding ownership
- Collateral consequences to relationships with manufacturers, vendors, lenders and landlords arising out of disputes
- Options for resolving disputes
